munitions of war, a military line to Oregon, supplies and instructions to our ships cruising abroad, the timely withdrawal of our ships in the Mediterranean, the arming of steamers, forts, gunboats, &c.; the disciplining the militia, the increase and reorganization of the Navy, and the emission of bills of credit from a United States Bank, which the exigency will bring into immediate requisition—all there measures of preparation for "the whole of Oregon or none," on the war plan, will demand and occupy the time of Congress till next July.

But we had not intended the resumption of this subject to-night. The House will take it up to morrow again, most likely, unless peutions, &c. should postpone it to the ensuing day. But, betieving that our chapters on this matter of Oregon through the columns of the H raid have already more clearly "opened up the merits of the question" than all the talk in Congress, we shall continue to discuss the subject with a steady eye to an honorable and peaceable settlement, but at the same time, with a readinese promptly to co-operate heart and soul for our country, if the Senate should—

"Cry havoe! and let slip the dogs of war."

But Mr. Calhoun is not yet defeated; and the time fixed for the resumption of the debate in the Senate, will have the effect of bringing more palpably to the minds of that honerable body, the stupendous question with which they are called upon to grapple, and the tremendous consequences to Christendom, and the tremendous consequences to Ch

war.

There are few strangers arriving—little doing in the way of office-begging, though a good deal of correspondence and intriguery is on foot, in connection with nominations before the Senate. Henyi Horn is fighting against a strong opposition, while all doubt as to the confirmation of Mr. Lawrence, we believe, is dropped in the well.

MEETING OF THE STOCKHOLDERS OF THE BANK OF THE UNITED STATES .- A meeting of the stockholdof the Bank of the United States was held in ladelphia on the 1st inst. The only matters of interest, in the proceedings of the meeting, were—
the reception of the report of the President and Directors, and the appointment of a Committee to inquire into the facts of the controversy between the
Bank and the Government of the United States, gaire into the facts of the controversy between the Bank and the Government of the United States, and to ascertain the expenses of the institution. In the report of the President, it is remarked that the only effects of the Bank over which the Directors seem to have any control are the stocks pledged in Europe to secure the loans contracted there. These stocks, (State,)—greatly depreciated as they are, in value—have been retained in the possession of the Bank, with the hope that they would eventually recover a par value, or a value equal to the loans for which they were pledged. Recently, however, information has been received from two of the European bankers, through whom the loans were negotiated, that some of the holders of the debentures had expressed their desire to exchange their debentures for a corresponding portion of the State stocks deposited in guarantee for their loans, viz: to take in payment for the debentures which they hold, the exact proportion of said deposit which would accrue to them if the stocks in deposit were to be distributed in an equal ratio to the holders of the debentures. This proposition was agreed to by the Directors of the Bank, and the necessary powers and authority were accordingly transmitted to the European bankers, in order that the proposed arrangement might be completed; the Directors also, at the same time, made a similar proposal to the bankers who represent the remaining portion of the holders of the debentures—but to this they have not received a definite answer. The Directors conclude their report with the following statement of the present circulation of the Bank, including post notes (except those issued to the Peiladelphia banks), and also the amount of deposits, bank balances, &c.:

Yesterday was quite a gala day in Baltimore, the fine reather having drawn forth both old and young to ency its animating influence. Cloaks and overcoats provid oppressive, and were laid aside, whilst fires were allowed to die away for want of replenishing—and all of s on the fourth day of January.
am sorry to see that Gov. Pratt has commenced the

infamous practice of pardoning convicts, because, for sooth, they have friends to intercede for them, while no mercy is shown the poor friendless devil who violates kins, a fellow who deliberately concealed himself in the room of a young girl of bud character, and on her entering, hoisted the window and threw her out headforemost, on to the pavement below, a distance of about forty feet. She is a cripple for life, having laid some time with little or no hopes of recovery. The parson is on condition of his solisting in the U. S. navy—but it is to be hoped recruiting officers will have more respect for the service than to receive convicts on their rolls. The members of the famous rape gang will come in next for executive favor. By the way, it would be well for the State to look to the infamous intrigues that are going on at the jail by hired spies to traduce and ruin the character of the witnesses in the rape cases. An endless system of cross-questioning and irritation is officed to draw forth admissions to serve as evidence on the coming trials. Indeed, if I mistake not, there is a scheme on foot through the co-operation of a certain prisoner confined for a misdemeanor, to give practical and tangible evidence to sustain the charges made against the virtue o-Margaret Ehrman.

The Old Dominion circus has broken up, the pavilion and horses having been seized by the builder and the owner of the ground, whilst I learn the agent is in jail for his printer's bill.

The Markets.—Flour was rather firmer on Saturday. Small sales of City Mills were made at \$3 37\frac{1}{2}\$; and a sale of 500 extra, at \$70\frac{2}{2}\$, cash. Howard street was also held at advanced prices, \$5 25 being offered and refu sed. Whiskey is very dull, small sales having been made on Saturday, at 25 in hids, and 26 in bbls.

Stock Boand.—There were no sales of Maryland stocks at the Board on Saturday—they were held at 77\frac{1}{2}\$ and 70\frac{1}{2}\$ was bid—the latter being a decline of \$\frac{1}{2}\$ on the lowest price paid on Friday. Baitimore 6's, 1890, declined to 90, at which price \$6000 sold, and a parcel of \$100 was let off at 95\frac{1}{2}\$. The business closed with sellers asking 97, and buyers offering 90\frac{1}{2}\$.

Typographical Society Celebration—Attempt to Murder— Meeting of the State Legislature—Message of the Gov-ernor—The Keans—Christian Huber—Madame Macartee-Templeton-John Quincy Adoms's Speech-Abokition—Southern Confederacy, 4c.
The weather since Saturday has been delightful. I

heard of nothing worthy of note, yesterday, and there-fore did not think it worth while to burthen you with a

letter.

The Philadelphia Typographical Society celebrated their 18th anniversary on Saturday evening, by a magnificent supper at the City Hotel, in 3d, near Arch street. About two hundred sat down to the table, among hom were some of our most distinguished citizens, and deputations of the editorial fraternity from nearly all the papers in the city, besides some of our best sing-

and deputations of the editorial fraternity from nearly all the papers in the city, besides some of our best singers. A quartette club favored the entertainment with their presence, and the occasional short and pithy speeches were calivened by songs and glees sung in capital style. I never enjoyed a more pleasant evening.

While all this joilification was going on, an attempt was made in Moyamensing to murder the colored keeper of an oyster cellar. A dispute occurred between him and some of the graceless soamps with which our city and districts are so bountsfully blessed, after which, one of them fired a pistel down the cellar at him, the ball taking effect upon his neck, and ledging in his shoulder. Another pistol was fired at his assistant, but the bullet missed him and embedded itself in the door post. The scamps effected their escape, and the wounded man was subsequently carried to the hospital. His hurts, though severe, are not looked upon as immediately dangerous. The Legislature of the State meta to-morrow, and the Govornor's Message will probably be delivered at 13 o'clock, striving in this city about 6. If it can be got before, you shall have a copy immediately. The subjects it will be recommended permanently to increase the revenues of the State, with a view to meet the permanent deficiency which the accounts of the last four or five years have presented, and to ensure, henceforth and forever, the regular payment of the interest on the public debt, with provisions for the gradual liquidation of the principal. The Keans concluded a triumphant engagement at the Chesnut street theater on Saturday evening. The play was 'lon,' with the "Honey Moon" as an afterpiece. The house was orowded, and the artists were called out, fac. &c., as usual. Christian Huber, the violonoellist. Ommences an engagement at this hence to-night.

Madama Mocartee has been re-engaged at the National or three weeks longer. She is a decided trump card, and

it makes

from the manner in which the houses are crowded. I should not be surprised if Gen. Welsh did not find it to his interest to retain her the whole sesson. The entertainments at this house continue to be of the most interesting character.

Templeton's entertainments have been well attended, though the balk made about his first appearance, and the consequent disappointment, cooled the srdor of our people, and they have not, as yet, been effectually wasked up. This is the characteristic of Philadelphians. They are phlegmatic, require s good deal of hammering at before they can be aroused—but when fairly stirred up, they are enthusiastic. A disappointment, however, throws them back into their original stolidity. Mr. T. continues with us this week, but he will give an entertainment to-morrow (Tuesday) evening, at Trenton.

Adams is at the Arch, playing "finnlet" to-night. This establishment has done an excellent business—probably better than any other house this season.

John Quincy Adams's speech has caused considerable excitement, and the probability is, that a large portion of the whigs will side with him, in which case John C. Calhoun will be placed in the "grand position" of "Napoleon at St. Helena." Such are the indications of the whig parity in this city, and I have it from some of their leaders here, that their correspondence from the west exhibit the same state of feeling. I perceive that an effort is being made in certain quarters, to turn the question into one of abolition and anti-abolition. If this is persisted in, it will turn the whole north, east and west into a united and unanimous abolition section of the Union. A more unwise issue the south could not make, and I think they will hesitate long before tendering it. The belief is gaining ground among our people, that the idea of a southern confederacy, separate from the Union or controling it, is at the bottom of this movement of southern statesmen upon the subject of Oregon. We to the south if they permit such an idea to influence their councils.

Spring-Like Weather-Churchgoing-Installation of Rev. Theodore Parker-Emigration to Texas-

Eighth of January, &c.

Yesterday was a delightful day—perfectly spring-like. Nothing but the cheerful notes of the feathered songsters was wanting to complete the resemblance. As a matter of course, in this church-going city, there was a great rush to the various houses of worship. But how many went there really to worship God, it would be difficult to tell. Where religion is popular, it has a host of hypocritical votaries, who attend church and preserve an outward appearance of sanctity, merely to advance their temporal interests, or gratify their love of display. Nevertheless, I am inclined to think, with the pious Mr. Butler, that it is a great blessing to have "the stated preaching of the gospel." There is much good mixed up with the cant and hypocrisy; and on the whole, the influence is salutary.

The Rev. Theodore Parker was installed, yestarday, over a new society, which worships at the Melodeon, where he has been preaching a short time. The manner of the installation was not altogether in accordance with established usage among congregational churches. It has been customary to summon an ecclesiastical council, to examine the candidate who offers himself for installation, and report upon his fitness for the sacrei office. No such council was convened on the present occasi in. Mr Parker, it seems, had made a contract with a committee of the society to become their minister, and notice was given that he would preach an introductory discourse yesterday forencon. The house was densely crowded, and the audience was composed of highly installation were requested to stand up, which they did. The speaker then turned to Mr. Parker, and asked him if he would abide by the agreement he had made with the committee; to which Mr. P. bowed in token of assent, and he was then declared to be duly installed.

In his sermon, Mr. Parker, and on token of assent, and he was then declared to be duly installed.

In his sermon, Mr. Parker had consented to give his view of what the Caristian church ought to be. He was not satisfi

Marietta, which is to sail from Merietta as soon as the water of the Ohio is of sufficient depth to float the vessel safely. The Marietta is to take in a cargo at New Orleans and sail for Empirical where she will be sold, if a fair price can be obtained; if not, she will return to the United States. It will be remembered, the burque Muskrugum was launched there some airteen months sizee. She made a voyage to England, and returned to Boston, where she was sold to a house at Forthard.—The barque Marietta is the secon sail vessel built there of late years. Mr. Huntington has followed the seas for four or fire years, and is a thorough seaman. Mr. His, probably the first years, and is a thorough seaman. Mr. His, probably the first sailor that has crossed the Alleighanies to ship for England.—The town of Marietta is not less than sixteen hundred miles from New Orleans. We have been given to understand hat the Muskingum preved a profitable undertaking; we have no reason to doubt that the Marietta will prove equally so; and ship building may yet become a great business on the Ohio, for Yankee enterprise can do almost anything.

Balsom!—Read the evidence:

Mr, Feek—Dear Sir.—Thankfulness and gratitude induce me to give my testimony in favor of your valuable Cough Byrup. About eight or nine months ago I was attacked with a severe cough, attended with symptons so violent as seriously to alarm my family and friends; while it long continuance threatened a total destruction of health and comfort. Under these circumstances, and experiencing no relief from the usual remedies, my husband was induced, by your solicitation. to administer your Syrup. He purchased a bottle, and the effect is had was astonishing; it operated like magic, and completely broke up my cough, healed the soreness of the cheat, banished all the slarming symptoms. and has left ms in the possession of an exrellent appetite and completely restored to health.
